City Rouyn-Noranda, Quebec Province, Canada.

**2005.9-2006.6**

Studied at Southern Yangtze University, major in Visual Communication.  
Wuxi city, Jiangsu, China.

### Notification:

#### Language:

I speak both Mandarin and Cantonese as my native language. I learnt English for several years and I'm learning French for two years now starting from my study at Quebec.

#### Methodology:

My exchange study experience gave me a wider view on culture differences which helps me to understand and cooperate with people who hold different point of views. I'm also self-disciplined while I work along. With motivation and reflection I will require myself to always searching for more possibilities and challenges and I will never stop learning and perceiving from knowledge and new occurrences.

#### Skills:

During my study on visual communication and multimedia, I gradually obtain the capacity of predominate several software which helps me on creating my work differently. I work concurrently with the most software of the Adobe master collections and I concentrate mostly at graphic and video.

#### Art:

Art is in some way my companion of live. I started to draw at a very early aged and I did small and mindless drawing like writing diaries. I enjoy all kinds of art from fix to live performance. I practice photography and drawing, but they all contribute on my art exploration of video and films. Art for me is to preserve the sensibility and the poetic fragility of the emotion and the truth which is losing little by little in the modern society.
